Powered SSL Service

**COMODO**

Creating Trust Online®

# Powered SSL Service

## Issue 128 bit Private Label SSL Certificates

Powered SSL allows you to provide privately labelled 128 bit industry standard SSL Certificates to your customers. Powered SSL is a unique service available through the Comodo Certification Authority Infrastructure that provides you with the ability to promote your own SSL security solutions to customers.

Comodo operate the backend Certification Authority responsible for the actual processing, validation and issuance of the SSL Certificate. The front end as seen by your customers is privately labelled to ensure your branding is prominent – we power your security solutions!

Cert Type	Warranty (\$)	Validation	Buy Price (\$)
Standard	50	Yes	97.30
Standard	Free site seal	Yes	155.72
Standard	Free TrustLogo	Yes	259.35
Wildcard	Free TrustLogo	Yes	679.32

## Enterprise customer opportunity

Powered SSL also allows you to provide Enterprise Consoles (EPKI Manager) to organisations with multiple Certificate requirements. The EPKI Manager allows organisations to manage and administer their Certificate requirements through a web-based console and avoids the inefficiency and expense usually associated with managing multiple certificates.

Comodo powers your security solutions. We provide the utility for you to provide your branded SSL Certificates to your customers

### The Comodo Value Promise:

To provide our customers with products and services that are unmatched in technology and fully leverage your brand to the highest value. We ensure that \$ for \$ our customers will make more money from providing services powered by Comodo

## Benefits

**Fully Managed System:** Comodo operates the backend Certification Authority including high availability secure redundant server systems, high speed FIPS 140-1 Level 4 signing devices, backup and customer support. # About Comodo

---

The Comodo companies provide the infrastructure that is essential in enabling e-merchants, other Internet-connected companies, software companies, and individual consumers to interact and conduct business via the Internet safely and securely. The Comodo companies offer PKI SSL, Code Signing, Content Verification and Email Certificates; award winning PC security software; vulnerability scanning services for PCI Compliance; secure email and fax services.

Continual innovation, a core competence in PKI, and a commitment to reversing the growth of Internet-crime distinguish the Comodo companies as vital players in the Internet's ongoing development. Comodo secures and authenticates online transactions and communications for over 200,000 business customers and 10,000,000 users of our desktop security products.
